**Edeniq Selected by AlwaysOn as an GoingGreen Silicon Valley Global 200 Winner**  
*Recognized for creating technology innovations in green technology.*

**VISALIA, California. November 7, 2012** – Edeniq, a biomaterials and sustainable fuels company, today announced that it has been chosen by AlwaysOn as one of the GoingGreen Silicon Valley Global 200 winners. Inclusion in the GoingGreen Silicon Valley Global 200 signifies leadership amongst its peers and game-changing approaches and technologies that are likely to disrupt existing and entrenched players in green technology. Edeniq was specially selected by the AlwaysOn editorial team and industry experts spanning the globe based on a set of five criteria: innovation, market potential, commercialization, stakeholder value, and media buzz.

Edeniq and the GoingGreen Silicon Valley Global 200 companies will be honored at AlwaysOn's seventh annual GoingGreen Silicon Valley, November 27<sup>th</sup> and 28<sup>th</sup>, 2012, at the Golden Gate Club in San Francisco, CA.

“This year’s GoingGreen Global 200 displays a maturity in the green technology industry that makes it very attractive to both investors and innovators. Greentech research is maturing rapidly, and as it couples with technology innovators and investors, companies are emerging that have the ability to change the way we live our lives for the better and bring huge returns to their founders and funders.” says Tony Perkins, founder and editor of AlwaysOn. “This year’s GoingGreen Global 200 winners are pushing the bounds of how technology can bring about change in the war on our planet’s waning resources. The strength of these companies lies in their ability to nurture innovative ideas and see them through to successful, sustainable, and profitable businesses.”

The GoingGreen Global 200 winners were selected from among thousands of domestic and international technology companies nominated by investors, bankers, journalists, and green technology industry insiders. The AlwaysOn editorial team conducted a rigorous three-month selection process to finalize the 2012 list.

Edeniq’s technologies convert non-food plant materials into low cost cellulosic sugars. Proprietary, tightly integrated mechanical and biological processes are bolted on to existing bio-refineries and can serve as the foundation for dedicated production of cellulosic ethanol, diesel, jet fuel, and/or chemicals. Edeniq owns and operates a demonstration-scale cellulosic ethanol production facility in Visalia, California.

“Edeniq is honored to be included on the GoingGreen Global 200,” said Brian Thome, President

& CEO of Edeniq. “We are working hard to provide technology that will help the country reduce our dependence on foreign oil, enable a sustainable, long-term plant-based supply solution, and support new domestic industries and jobs.”

### **About Edeniq**

Edeniq integrates patented mechanical and biological processes to efficiently and cost-effectively break down plant material into sugars that become sustainable fuels and/or industrial materials. Edeniq’s patent portfolio includes innovation in biological catalysts plus mechanical processes that helps meet the industry-wide challenge of taking today’s plant-based resources into future markets and applications. Headquartered in Visalia, Calif., with locations in Omaha, Neb., and the state of Sao Paulo in Brazil, Edeniq is funded by such leading investors as Kleiner Perkins Caufield & Byers, Draper Fisher Jurvetson, Flint Hills Resources Renewables, The Westly Group and Cyrus Capital.
